

# SONAC 35 For easy welding using an ultrasonic device Smaller size • Light weight

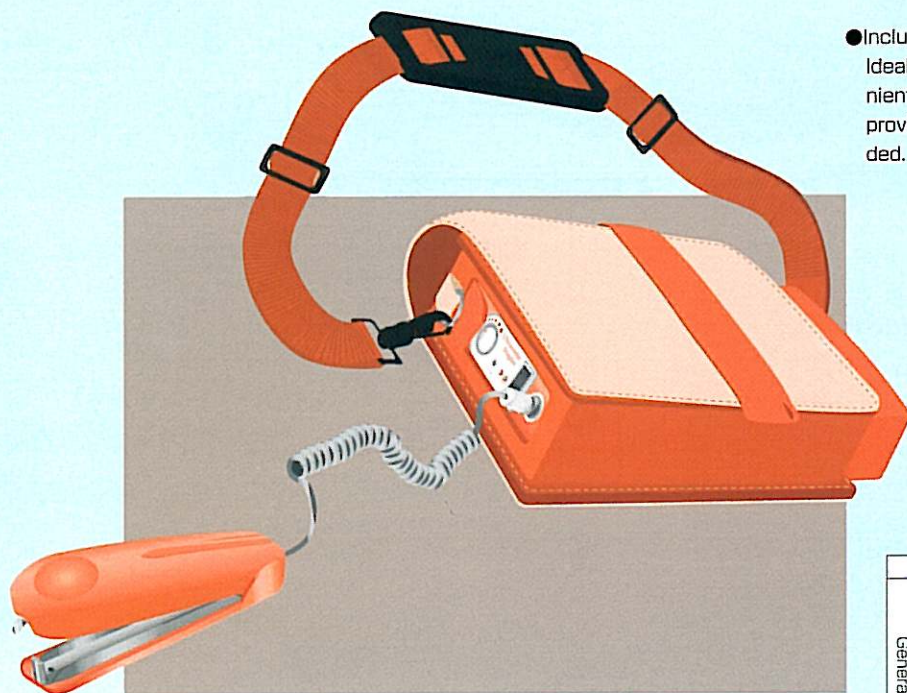

SONAC-35

- Easy welding  
Because ultrasonic is used for the welding, no pins or heater is needed, providing for a safe and easy way to weld plastic materials.
- Easy operation  
The operator only needs to turn on the device and the unit is ready to weld. It is so easy to use due to simple operation, light weight and small size, that even a beginner may weld like an expert.
- Includes timer setup function.

Model code		SONAC-35
Generator	Oscillation mode	Self-activating oscillation
	Max. power output	20W
	Oscillation frequency	60kHz
	Power supply	AC100V/0.2A
	Dimensions (mm)WxDxH	155×160×65
	Timer	From 0.5~05sec.
	Weight (kg)	1
	Power consumption	20VA
	Cable length	1.5m
Hand piece	Transducer	Bolt clamped Langevin transducer
	Control	Snap switch
	Dimensions (mm)	28×163×42
	Effective adhesion range	2×5
	Weight (kg)	0.2
	Cable length	Output cable: 1.5m

# SONAC 15DC Portable welder with built-in battery, carrying case and shoulder strap allows for easy handling.

SONAC-15DC

- Includes carrying case and rechargeable lithium battery.  
Ideal small welder for mobile workers who need a convenient, easy to carry welder. Rechargeable lithium battery provides 2000 continuous shots before charging is needed.

Model code		SONAC-15DC
Generator	Oscillation mode	Self-activating oscillation
	Max. power output	15W
	Oscillation frequency	57kHz
	Power supply	Lithium ion polymer battery The adapter for charge AC100~240V
	Dimensions (mm)WxDxH	129×171×50
	Timer	From 0 to 5 sec.
	Weight (kg)	0.6
	Power consumption	20VA
	Cable length	The adapter cable for charge: 1.5m
Hand piece	Transducer	Bolt clamped Langevin transducer
	Control	Lever switch
	Dimensions (mm)	28×124×54
	Effective adhesion range	2×5
	Weight (kg)	0.25
	Cable length	Output cable : 0.5m(Curled cable)
